

LV Streetwise in partnership with **Bournemouth Airport Fire & Rescue Service, South Western Ambulance Service NHS Trust** and **MAX Conflict Management** can provide all your certificated courses. If there is a course that isn't listed, just give us a ring. By taking up a place or promoting the course to others you will be supporting the LV Streetwise children's charity. Profits go towards saving children's lives by helping them learn how to prevent the tragedies of avoidable accidents at home, on the roads and at play. See next page for prices.

First Aid Courses (HSE Certificated)

* 1 Day Appointed Persons Course

An introductory course, still covering important topics e.g. CPR and the Recovery Position. Ideal for people who want to have some training in the case of an accident.

* 4 Day First Aid @ Work Course

More practical involved. Topics range from CPR, Recovery Position, Breaks and Burns.

* 2 Day First Aid @ Work Revalidation Course

Reviews the 4 Day Course, with a chance to improve or update your skills.

* ½ Day Interactive Appointed Persons Course

Similar to the 1 Day Appointed Persons Course, but with skill practice on 'live' casualties.

*"A well put together course. The trainer delivered the session in a fun and easy way to remember."
Karen Skuse, Midwife, 1 Day Appointed Persons Course.*

Fire Safety Courses (HSE Certificated)

* ½ Day Fire Safety @ Work Course

An introductory course that covers what to do in case of a fire and which fire extinguishers to use.

* 1 Day Fire Marshal Course

A lot more practical involved including the chance to 'have a go' with the extinguishers. Topics include Risk Assessment and Evacuation Procedures.

* 1 Day Fire Risk Assessment Course

This course covers all areas of Risk Assessment.

*"I attended the fire marshal course at the airport recently and found the whole experience very interesting and informative. The course structure covered all aspects of fire safety from video information to "hands on" training which included evacuation of the building and using fire extinguishers to put out real fires. I would recommend this course to anyone who would be in a position of Fire Marshal as it gave a very realistic insight to dealing with procedures in the event of a real fire."
Kim Dare, Siemens VAI Metal Technologies Ltd, 1 Day Fire Marshal Course.*

Manual Handling Course (HSE Certificated)

* 1 Day Manual Handling Course

Covers Manual Handling @ Work Regulations 1992 and Study of Kinematic Management including the opportunity to practice the right way of moving heavy objects.

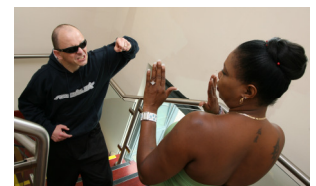

*"Most acceptable and suitable venue. The course was very informative and helpful."
Trevor Chainey, Asbury Heating Ltd.*

Personal Safety Courses

A range of calming conflict management and self defence courses are available with techniques to protect yourself against aggressive behaviour. MAX ensures you get what you need from the training and incorporates games and mild exercise - but above all makes it very practical.

*"The course gave me confidence to deal with a conflict situation."
Ben Buxton, Warden - The Urban Heaths Partnership.*
